

## **LATVIA**

On behalf of Istanbul Erkek Lisesi, a group of students and teachers went to Latvia as part of an Erasmus+ project called "Storytellers Across Europe" between the dates of 23-29 April 2023. The mobility took place in Daugavpils, the second largest city in Latvia and we were immersed in diverse cultures.

As the main focus of the project is to learn about the traditions, myths, stories and legends of the partner schools from Greece, Italy, Romania, Lithuania and Latvia, the students from six different countries not only had a clear understanding of the cultural heritage of each partner school but also got the awareness of cultural differences and common European heritage.

As well as putting the "Drama Play" which is based on a traditional legend/story on the stage, students worked in groups to create a new digital story and posters. In addition, they had the opportunity to try some Latvian folk dances, had a city tour in Daugavpils to see the historical places and joined various workshops.

During the mobility, the students made new friends, learnt about different stories and legends and had an amazing time!
